Profile

Second-year B.Tech Computer Engineering student at CHARUSAT with hands-on experience in software development, data structures and algorithms, and full-stack web development. Strong in problem solving, object-oriented programming, REST API development, and database management.

Education

B.Tech in Computer Engineering, Charotar University of Science and Technology (CHARUSAT), Gujarat
Second Year CGPA: 7.93
Expected Graduation: 2028

Class 12 (Science), Sheth P.H. Vidyalaya, Navsari
Completed in 2024

Skills

Programming Languages: C++, Python, JavaScript
Web Technologies: HTML, CSS, Tailwind CSS, React
Backend & Databases: Node.js, Express.js, MongoDB, REST APIs
Tools: Git, GitHub, VS Code, MSYS2, GDB, Linux (Basic), Arduino
Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Problem Solving, Basic Electronics

Projects

Hello Doctor – Doctor-Patient Appointment & Management System (Ongoing)

- Developing a full-stack web application for doctor-patient appointment booking and profile management.
- Designing and implementing RESTful APIs using Node.js and Express.js.
- Implementing JWT-based authentication, cookies, and role-based access control.
- Managing application data using MongoDB with CRUD operations and validation.
- Building responsive frontend components using React and Tailwind CSS.

Programs & Participation

Zuvy – Amazon Future Engineer (AFE) Bootcamp
Selected for a no-cost, intensive technical training program with live sessions, mentoring, and project-based learning.

Coding Profiles

- HackerRank: 5-star badge in C++
- LeetCode: 200 problems solved
- GeeksforGeeks: 150+ problems solved
